- Creating alerts, saving searches, and sharing searches with others.

Details

Quick Search

- Enter keywords, books, journals, authors and additional information into the main search box on the home page to quickly search through records.

Search Options

- Click on **Search Options** underneath the main search box.
- To limit your search to books you can download, check the **Download Available** box.
- To search the full text of books, check the **Also search within full text of the articles** box.
- Use the “**Published Date from**” feature to search by publication date. For example, if you want to find articles from 1989, select January 1989 to December 1989.

Using Smart Text Searching

- **SmartText Searching** exists under the **Search Options** link under the main search box on the home page.
- Check the **SmartText Searching** box.
- Type in a sentence or copy and paste a paragraph into the search box (for example, “What was the financial impact of the fall of the Berlin Wall?”)
- EBSCO’s eBook Collection will display results that best match your search.

Search across EBSCOhost databases

- To search across multiple EBSCOhost databases, click on **Choose Databases** located above the main search box.
- Check the **Select/deselect all** box to choose all databases.
- Check on the boxes next to databases' names that you wish to search through. To search more than one database check multiple boxes.
- After you've made your selection, click **OK**.

Create Account

- Create a My EBSCOhost account: click **Sign In** in the upper right corner of the page, then select **Create a new Account**. You will be asked to provide basic information including your name and password.

Alerts, Save searches, and share with others

- The **Share** button above your search results will allow you to do the following:
 - **Add to folder:** Save either the results to your search or the terms for your search to a folder that you can access later.
 - **Create an alert:** Create an email alert or an RSS feed to be updated whenever a new article on your search term is added to the database.
 - **Use Permalink:** Copy and paste a permanent URL for your results.
 - **Bookmark:** Bookmark your results by choosing from such bookmarking services as Reddit and Digg. Click **Email** to email the results.
 - Subscribe to the **RSS feed** by clicking the  button.
